

# GOLD QUEST

TSXV:GQC

GoldQuest Mining Corp. (GQC: TSX-V) is focused on **gold** exploration in the **Dominican Republic**. Here the company recently made a blind discovery called **Romero** which is located on GoldQuest's 100% owned Las Tres Palmas Trend.

The Las Tres Palmas Trend contained a NI 43-101 compliant resource of 300,000 ounces of gold at La Escandalosa in the inferred category. The company is actively drilling at Romero, where a resource will be defined in the future.

Veteran management has implemented a systematical approach that is paying dividends through mapping, geochemical sampling, and geophysical programs (IP and Magnetics) followed up with targeted drilling.

## MANAGEMENT TEAM

### Julio Espailat – President and CEO

Mr. Espailat has over 23 years experience in the mining industry and holds degrees in Mining Engineering, Mining Geology, and Environmental Economics. He is a former Professor of Geology and Dominican National. Previously Mr. Espailat served as Vice President of Exploration for GlobeStar Mining Corp, putting Cerro de Miamon into production in the Dominican Republic.

### Bill Fisher – Chairman

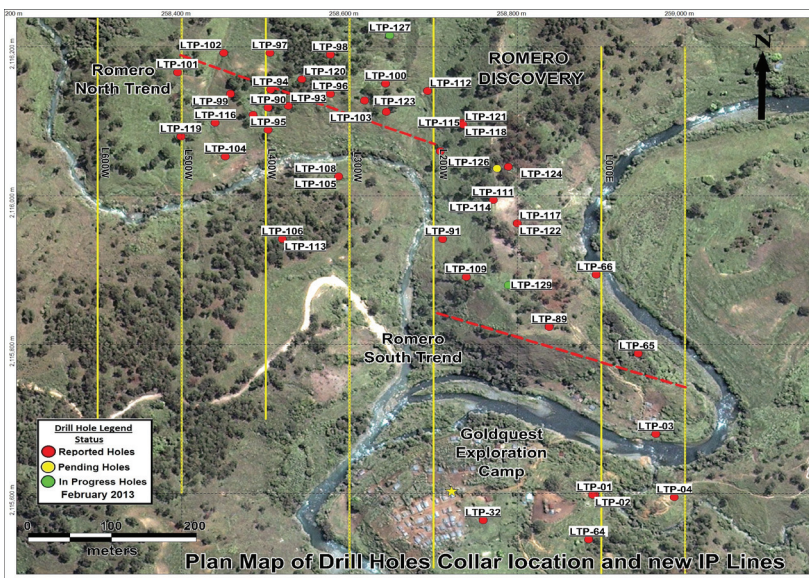

Mr. Fisher graduated as a geologist and has extensive experience worldwide. Among other positions, Mr. Fisher has worked as Vice President, Exploration for Boliden AB and was responsible for 35 projects in 9 countries. Further, Mr. Fisher was Chairman of Aurelian Resources and led GlobeStar Mining Corp in the Dominican, both of which were eventually bought out.

### Jeremy Niemi – Director of Technical Services and Compliance

Mr. Niemi is a geologist with more than 16 years experience in the mining industry. Previously Mr. Niemi was Vice President, Geology, with Noront Resources and Manager, Technical Services with Kinross Corp.

### Paul Robertson – CFO

Mr Robertson has over sixteen years of accounting, auditing, and tax experience having previously worked with Ernest & Young. Mr, Roberson is managing partner at Quantum Advisory Partners LLP

## NI 43-101 MINERAL RESOURCES

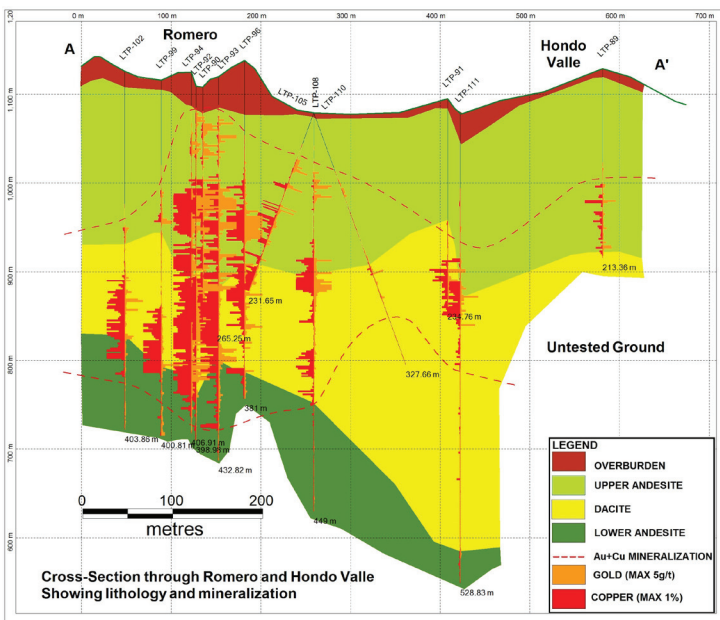

LOCATION	PROPERTY	NI 43-101 RESOURCE	TONNES (MILLION)	GOLD (G/T)	SILVER (G/T)	COPPER (%)	ZINC (%)
Dominican Rep.	La Escandalosa	Inferred	3.1	3.14			
	Las Animas	Indicated	1.01	2.81	49.58	2.4	2.57
		Inferred	0.44	1.68	36.91	2.56	4.67

## ROMERO HIGHLIGHTS

HOLE	LENGTH (M)	GOLD (G/T)*	COPPER %	GOLD EQ (G/T)*
LTP-90	231	2.4	0.4	3.1
Incl.	12	18.3	2.1	21.5

LTP-118	49	2.1	0.7	3.2
LTP-120	57	2.2	0.9	3.6

The Romero Discovery has demonstrated the effectiveness of using ground IP surveys to successfully target gold and copper mineralization. Moving forward GoldQuest will continue to drill and define the size of the Romero mineralization and expand coverage of IP surveys over the claim package. The highest priority targets will be drilled as we explore for additional mineralization and aim to increase our gold resources in the Dominican Republic.
